

Quanext OTTIMO 19" All in one Pc Tv Stereo

BUY IT ONLINE NOW

The main aspect of this solution is the style. Through this unique style you can think of having a powerful computer and a normal TV set in just one machine. And that is not all: the versatile and friendly user front panel lets you switch from TV to Computer function with just one button.

The big powerful round speakers are well attached on the sides of the unit giving an extra sound to your favorite games or multimedia experience.

The Quanext "OTTIMO" is well designed to operate under LINUX SUSE like his older brother plus it is Microsoft Windows XP/Vista compatible.

KEY FEATURES:

- All in one solution, throw away your box/case, everything is inside the lcd screen.
- Great for Internet surfing, home/office use, word processing, emails, pictures
- Portable solution with a praticle handle you can easily move your computer from a place to another
- 19" widescreen monitor with high resolution for high quality images and better view of any multimedia files
- 2 big ROUND SPEAKERS with bass included give your multimedia experience a new effect
- Easy to operate, only one button to switch the machine on and swith it to TV function.
- Ottimo is a COMPUTER and it is a NORMAL LCD TV, 2 machines in one.
- No need to INSTALL any TV TUNER softwares, just connect your antenna or cable line and you are ready to watch TV.
- All connections are in the back of the unit for easy access. The unit is equipped with a DVD slot in player and a very useful retractable stand to help move your computer everywhere you want.
- Play your favorite games
- Great for presentations, shops, travel agencies, music stores, real estate agencies, netbars, cafes, clubs.
- Perfect for using a multimedia center software

All connection are easily seen in the back of the machine. It is simple to find the appropriate port for your external device. This makes everything faster even for computer beginners.

The front panel is illuminated and it has a small touchscreen part where you can adjust volume, switch from PC to TV function, Auto adjust the screen..
